PROFESSIONAL SUMMARY

Versatile Computer Science student specializing in AI/ML and full-stack SaaS development. Experienced in building multi-tenant serverless architectures, real-time collaborative systems, and deep learning models using PyTorch. Proven track record in delivering production-ready web and mobile solutions with a focus on scalability and user experience.

TECHNICAL SKILLS

- **AI, ML & Data Science:** Python, PyTorch, torchvision, timm, OpenCV, pydub, Prompt Engineering
- **Web Development:** React.js, Vite, Tailwind CSS, HTML, CSS, JavaScript
- **Mobile Development:** React Native, Expo, NativeWind (Tailwind CSS)
- **Databases & Backend:** Node.js, Firebase (Firestore, Auth, Storage), MySQL, REST APIs
- **Tools & Other:** Git, AWS (Cloud Foundations), Serverless Architecture, Context API

EDUCATION

K. K. Wagh Institute of Engineering Education & Research, Nashik

B.Tech in Computer Science and Design

2022 – Present

Current Sem GPA (7th): 8.5

Global Public School, Nashik

Higher Secondary Certificate (HSC) - Science

2022

Nashik Cambridge School, Nashik (SSC, 2020)

EXPERIENCE

• App Development Intern

Tech Spark, Nashik

- Contributing to the design and development of cross-platform mobile applications using React Native.
- Collaborating on UI/UX enhancements and integrating backend services for optimized performance.

• Web Developer & Designer

Karmaveer Expo 2024

- Independently redesigned the complete official website, improving site performance and user registration flow.

PROJECTS

• PeopleSpark (Multi-Tenant HR & Employee Management SaaS)

Tech Stack: React Native, React.js, Firebase, Google Meet API, SDKs

- Engineered a comprehensive SaaS platform with a hierarchical database structure for secure multi-company isolation.
- Implemented real-time attendance with geo-fencing, task management, and Google Meet SDK integration for meetings.

• Real-Time Multimodal Deepfake Detection System

Tech Stack: Python, PyTorch, timm, OpenCV, pydub

- Final Year Project: Developed a deep learning model to detect synthetic media in real-time.
- Integrated OpenCV for video processing and pydub for audio artifact analysis to improve accuracy.

• Personal Finance Manager

Tech Stack: React Native, JavaScript, Firebase

- Built a cross-platform mobile app for real-time expense tracking and financial management.

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Academy Graduate** – AWS Academy Cloud Foundations (Apr 2025)
- **React Native Full Course** – Cursa (Apr 2025)
- **Community Volunteer** – Participated in event organization and social service initiatives.
